

Silhouette

Console Lamps

Elegantly oblivious to adornment and ornament, the SILHOUETTE pares the organic form to its sculptural essence.

Set on a cube of solid hardwood, the eye is drawn upwards, tracing the stem's elongated "legs up to there" 36" elegant profile. With its whiplash twirls, and unexpected turns, designer Laura Spector offsets the straight and narrow with her signature sensuality, lyricism and whimsy. Poised to look distinctive from every angle, the Silhouette console lamp is sure to cast any room in a sophisticated light.

Nickel plated and polished to a lustrous finish, each Silhouette offers a unique interpretation of the organic form.
